## GONADON

**Mating Made Easy!!**

**DONG BANG CO., LTD.**

[www.DongBangAH.com](http://www.DongBangAH.com)

**Drug Information****▶ Ingredients, content of active ingredients :**

Each ml of gonadon contains  
 Gonadorelin (as acetate) (B.P.)..... 100 mg

**▶ Features and benefits :**

1. Gonadorelin is the same structure of GnRH secreted in the body
2. Mechanism of action, releasing LH and FSH from the anti lobe of pituitary is closed by nature
3. GONADON is quickly absorbed and rapidly excreted.
4. Because of a small molecular weight the possibility including anti-hormone is lower. Therefore it is possible to repeat the administration of GONADON

**▶ Indications :** In breeding cattle :

- ▶ For the treatment of cystic ovarian disease, atrophy of ovary, Hypoplasia of corpus luteum, Follicular Hypoplasia-5ml GONADON IM
- ▶ The stimulation of ovulation, the treatment of ovulation disorders-2.5ml GONADON IM
