

# Wiltz E + Se

## Vitamin E fortified with Selenium

### INTRODUCTION

Wiltz Vitamin E + Se liquid is a combination of vitamins and antioxidants, specially formulated to help with faster recovery from diseases and anti-stress in Poultry.

Vitamin E is a primary dietary antioxidant and helps in maintaining cell membrane integrity. Supplementation of Vitamin E increase the birds' immune resistance against pathogenic diseases, together with selenium, it helps to maintain good health. Selenium is also an essential element in poultry nutrition, helps in maintaining an effective antioxidant defense. Selenium is involved in the protection against oxidative stress and regulation of cell growth, apoptosis, and modification of cell signaling systems and transcription factors. Therefore, its adequate dietary supply is crucial for various physiological processes in the animal/chicken body.
